

2.5 Precise Definition of a Limit Worksheet

1. Prove that $\lim_{x \rightarrow 3} (4x - 5) = 7$.

2. Prove that $\lim_{x \rightarrow \frac{1}{2}} (10x + 6) = 11$.

3. Find $\lim_{x \rightarrow 0} (-2x - 5)$ and prove your answer is correct.

4. Find $\lim_{x \rightarrow \pi} \left(\frac{2}{\pi} x - e \right)$ and prove your answer is correct.
